We have been funded for internal connections in an existing school named "Rancho Viejo" for funding year 5. This school is being replaced with two new schools, both on the same campus as the existing school, one with the same name "Rancho Viejo" and one with a new name "Salida del Sol".

The existing student population will be moved into the new schools.

Construction has begun and we do not intend to add cabling to the school we will be abandoning.

Will you allow us to use the funds allocated in funding year 5 for the existing "Rancho Viejo" school in the new "Rancho Viejo" school?

Will you allow us to use the funds allocated in funding year 5 for the existing "Rancho Viejo" school in the new "Salida del Sol" school?

I believe the significant points are:

1. This is the same student population as that which was funded.

2. These replacement schools are being built on the same campus as that which was funded.

Please advise.

Thank you,

Herb Harries
